STUDENT SERVICES DIVISION

“Believe in the dream and create the opportunity”

Mission: In the School of Communication, which includes the Center for Radio, Television, and Print Media Professional Studies, our mission is to educate professionals to a high level of excellence in the disciplines of human communication, ranging from human communicative interaction to digitally driven mass communication. The School's goal is to educate individuals for strategic societal roles in the 21st century.

Within the school, the Student Services Division which houses the Student Services Center offers new student orientation, one stop shop registration, mandatory freshman, sophomore and transfer advising, retention services, recruiting and graduation assistance. The Center engages students in a developmental process which helps clarify and implement individual educational plans consistent with their skills, interests, and values. Through individual appointments, group advising sessions and presentations, the professional staff, faculty advisors, and student workers help students understand the university's academic requirements as well as its policies and procedures.

As a result of our mission, students are better prepared to make informed decisions about their educational choices which ultimately will assist them towards a timely graduation. Our team has outlined six attainable goals that will take us to the “Next Level”.

Mission Statement for Academic Advising

The mission of the Academic Advising unit in the School of Communication is to assist students in relating their needs, values, abilities, and goals for preparation in majoring and minoring in departmental curricula for entry into the workforce and for graduate study. Quality advising leads students in choosing appropriate courses and majors according to their interests and skills. Successful advising leads students in gaining the maximum educational and personal benefits from programs in the School of Communication and the University.

What is advising?

There are two kinds of advising: prescriptive and developmental
Prescriptive advising is how advising may be commonly viewed as helping students select and schedule courses. With fairly brief training, advisors may become qualified to provide prescriptive advising.

Developmental advising involves helping the whole student develop and achieve his/her educational, professional and personal goals. It involves helping students become self-aware and to choose goals and enact plans that will help them achieve their goals.
